

McGregor Aqua Seeder™

Built to perform hours of trouble free seeding, the **McGregor Aqua Seeder™** is ideal for commercial and residential planting. Designed with the operator in mind, they are efficient and easy to use. Within minutes the mulch can be prepared. The **McGregor Aqua Seeder™** will pump to the bottom of the tank, eliminating wasted mix.

Clean out is quick and easy - quick connect hose ends and hand gun, straight line plumbing, drain at bottom of tank, pump clean out feature and flush tank save wasted time preparing the Aqua Seeder for the next Job.

The **McGregor Aqua Seeder™** can be used with a variety of service vehicles. Lift brackets make loading and unloading quick and easy allowing the vehicle to be available for other uses. The **McGregor Aqua Seeder™** can also be used in fire protection. The versatility of these Aqua Seeders, the time savings in mulch preparation, application, and cleaning as well as being easy to operate make the **McGregor Aqua Seeder™** is an investment that quickly pays off.
