

## The McGregor Company

*The McGregor Company has been a part of Inland Empire agriculture for over 100 years. We've earned the trust of many growers by providing excellent service and quality equipment. Striving to keep that trust is something we work on day after day, season after season through the hard work and dedicated efforts of the employees that ARE The McGregor Company.*

*Know that you are buying a quality product from a well-trusted company.*

**When using any outdoor fireplace make sure safety is your #1 priority. The safety of your family, your property, and possibly your neighbors is at stake. Have a fire extinguisher, a bucket of water or other water source readily available.**

## Extend your outdoor living space!

If nothing but the rich ambiance of a real wood fireplace will do, cozy up to our Wood Burning Outdoor Fireplace. Use this chiminea style fireplace to extend the usefulness of your outdoor living and dining room spaces.

This durable heavy gauge steel fireplace has a large swing door that opens fully for easy access and a fire screen to arrest the big sparks from jumping out of the fireplace. The sturdy four leg design will ensure a solid placement wherever you choose to position it. While this fireplace does not direct much heat downward, we recommend using patio block or a hearth pad to protect the surface of your deck or patio.

### Color Options:

Our outdoor fireplaces all start with a layer of high temperature paint. A factory designed curing process will occur the first time you build a fire and some smoke and odor during this process is to be expected. We currently offer three Stove Bright® color choices:

Metallic  
Black

Mojave  
Red

Honey Glo  
Brown

As with all outdoor equipment or furniture, regular maintenance is required to keep your product looking great and lasting for many years to come. Aerosol cans of the above colors are available through The McGregor Company for at-home touchups.

### Specifications:

**Firebox: 1/4" thick steel**

**Smoke Stack: 3/16" thick steel**

**Overall Width: 23 inches**

**Overall Height: 84 inches**

**Weight: 198 lbs**
