

## McGregor Mid-Range Sprayer

The **McGregor M-150/300 Mid- Range Sprayer** is a versatile general-purpose sprayer. It is small enough to be pulled by small garden tractors such as Kubota, John Deere's AMT transport and all types or sizes of 2 or 4 wheel drive pick-ups, trucks, or service vehicles.

The **McGregor M-150/300 Mid- Range Sprayer** is as rugged as they are versatile. They have been designed and built to provide many years of trouble free spraying and service with a minimum amount of maintenance.

The **McGregor M-150/300 Mid- Range Sprayer** can be used to spray fence-rows, around buildings, grain bins, ditches, road-ways, pastures, small acreage, lawns, shrubs, trees, and spot spraying. By adding the turf options, the M-150/300 Sprayer can be set up to spray golf courses, parks, school or campus grounds, airports, industrial sites, and cemeteries.

The **McGregor M-150/300 Mid- Range Sprayer** can be used to apply insecticides, herbicides, fungicides, and liquid plant food.

### Some advantages of owning and operating a McGregor M-150/300 Mid-Range Sprayer are:

- A large range of vehicles can be used to tow the McGregor M-150/300 Mid- Range Sprayer.
- Quick and easy attachment means that you can hook up the M-150/300 and be spraying in a matter of minutes. Just as quickly, you can un-hook from the M-150/300 when you need to use the tow vehicle for other jobs.
- You can spray with the M-150/300 using the boom only, or use the hand line and spray gun only.
- The McGregor M-150/300 Mid- Range Sprayer may be used as a traveling nurse unit for a walking boom sprayer. Also, the M-150/300 can be used as mix/nurse trailer to supply smaller sprayers.
- Minimum employee training required for operating the sprayer
